Profile

My name is Muhammad Uzair. I am graduated from MAJU with a degree in BS Software engineering. I'm looking to become a SQA in a publication like yours. I'd like to think that together, we can improve the lives of others all across the globe.

Employment History

SQA INTERN, CODUP

Project: E-commerce website with back-end of WordPress and also sync with different websites where data can pass to different roles and below the responsibility I did;

- Run Multiple Testing Types Daily.
- WordPress Exploration.
- Test-Case Creation.
- Test-Case Execution.
- Test Scenarios.
- Daily Meeting with PM and Developers.
- BUG Reporting.
