

Technology Services Portfolio

TechXcape Private Limited

COMPANY
PROFILE

We plan. We build. We manage. We are the Digital crackers and our benchmark is providing you with seamless technological and digital services.

About TechXcape

Our team is a digital group of prolific designers, app & website developers providing Cloud Development solutions based globally including in Pakistan, United Kingdom, United Arab Emirates and Australia.

Well-built Custom Solutions

We are not down-the-road developers who theme websites and recycle brands. We focus on high-end, bespoke solutions and development that involve scoping, architecture, building and quality assurance. Our team culture prioritizes cutting-edge technology and a fluid learning attitude not only because it is the best, but also to provide our clients with a competitive advantage.

User Experience As A Priority

We believe that interacting effectively and intuitively with users is fundamental to the success in the corporate world. We utilize both “form and function” to create an exceptional experience for both, the audience and the service provider - neither outweighs the other, though both work in tandem! We build an exact standard. We craft experiences oriented towards professional goals. We close the gap between Marketing, Designing, Development, and Experience.

Our Commitment

We commit to fast, efficient and seamless digital solutions. Our products and services speak for themselves when it comes to being the best in the market.

Honesty

Integrity

Transparency

What makes us stand out from the rest is our exceptionally talented team of professionals, our work ethics and culture and our loyalty to our clients. We provide our clients the flexibility to adapt to the rapidly evolving world. We build lasting relationships with our clients built on mutual respect, trust and a moral obligation to provide the best client experience. We strive to put you in a path of long term success.

This is achieved by offering multiple models to suite the organizations requirements, such as:

- ✓ **Resource Pooling**
- ✓ **Placement of onsite engineers and consultants**
- ✓ **Scope delivery engagement model**
- ✓ **Remote resource engagement services**

TECHNOLOGY WE USE

Successfully Delivered

Consumer Connect

Application Name:
Surveying Portal

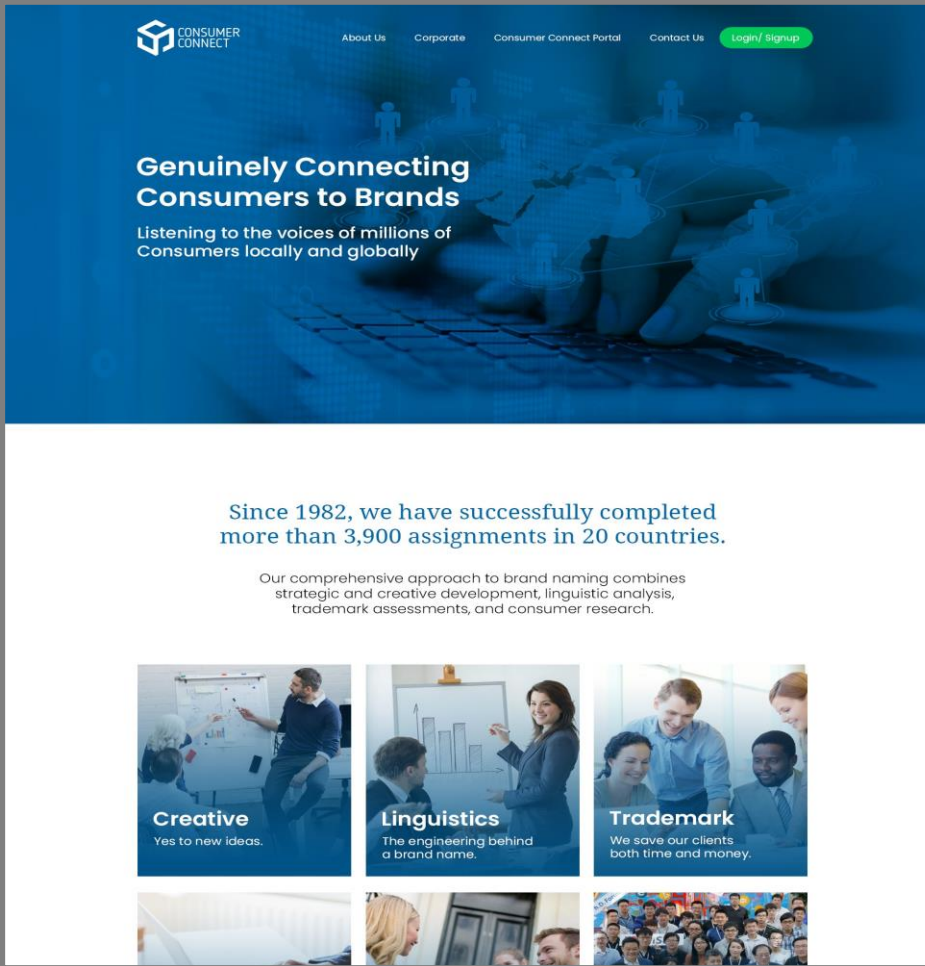

Type:
Market Research / Survey

Platform:
Web Application

Technologies:
HTML/CSS, JQuery, JavaScript, Docker,
Chronjobs,
PHP (CodeIgnitor Framework) , MySQL
Database, Zoom API

Goal:
To provide a platform for the researchers to
interview
and shortlist respondents and provide market
survey facilities

www.consumerconnect.com

The screenshot shows the homepage of the Consumer Connect website. The header features the logo on the left and navigation links for 'About Us', 'Corporate', 'Consumer Connect Portal', 'Contact Us', and 'Login/Signup' on the right. The main content area has a blue background with the headline 'Genuinely Connecting Consumers to Brands' and the subtext 'Listening to the voices of millions of Consumers locally and globally'. Below this, a white box contains the text: 'Since 1982, we have successfully completed more than 3,900 assignments in 20 countries.' followed by a paragraph: 'Our comprehensive approach to brand naming combines strategic and creative development, linguistic analysis, trademark assessments, and consumer research.' The bottom section features three columns: 'Creative' with the tagline 'Yes to new ideas.', 'Linguistics' with 'The engineering behind a brand name.', and 'Trademark' with 'We save our clients both time and money.' Each column includes a small image of people in a meeting.

786 Cosmetics

Application Name:
Shopping Website

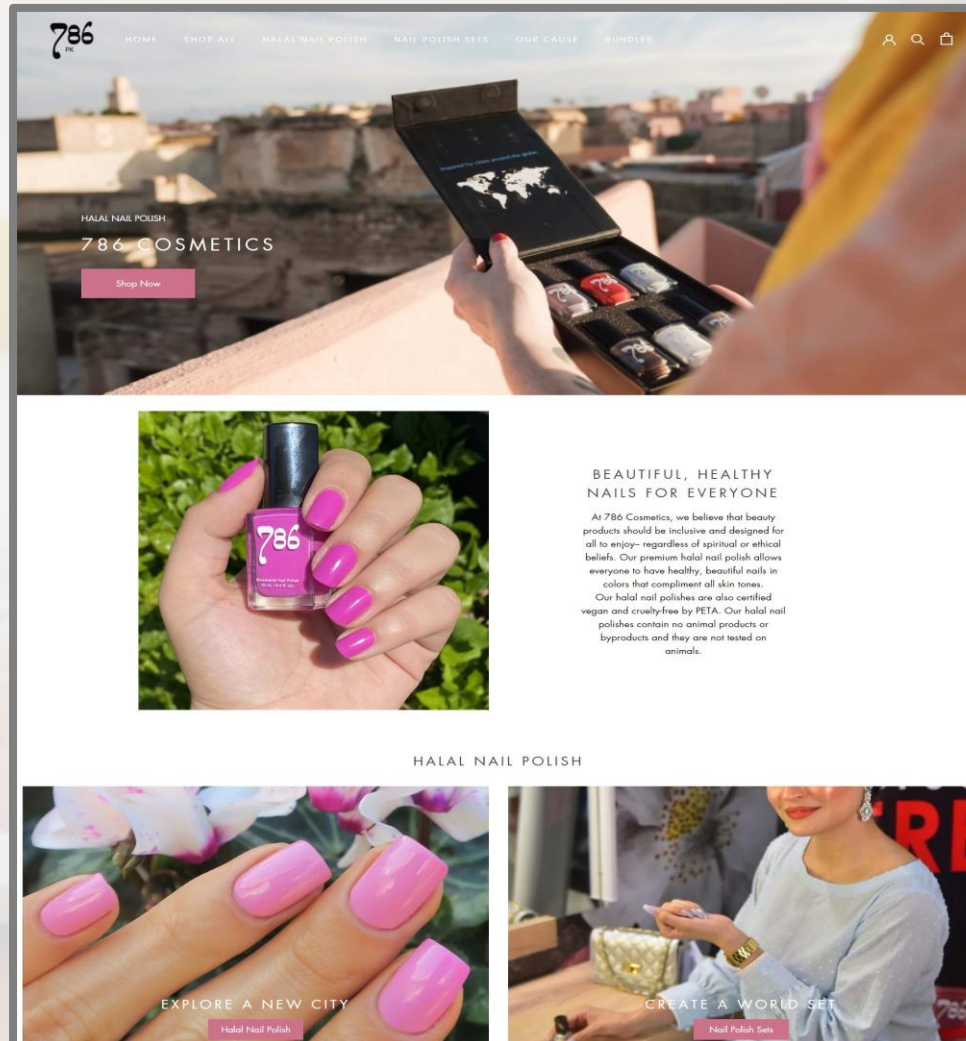

Type:
Ecommerce

Platform:
Shopify

Technologies:
HTML/CSS, JQuery, JavaScript, Liquid

Goal:
Ecommerce Store for Cosmetic Products

RatedSkills

Application Name:
RatedSkills

Type:
Online Interview and Verification System

Platform:
Website

Technologies:
HTML/CSS, JQuery, JavaScript, PHP , Laravel

Goal:
Portal to Automate the interviewing and verification process.

The screenshot shows the RatedSkills dashboard for a candidate named John Smith, Sr. UI UX Designer. The dashboard includes a profile section with a photo, name, title, location (D-14, Manga Street, New York, USA), and email (Tyler.f@email.com). Below the profile is a 'Congratulations!!' message stating that the user's skills are in high demand and they are invited for an interview. A 'Schedule Interview' button is visible. The 'Profile Completion' section shows a progress bar and options to 'Add your resume' and 'Add a reference'. The 'Top Skills' section displays three skills with progress bars: UX Design (72%), AI Development (52%), and Block Chain (37%). The 'My Matches' section shows three potential matches, each with a company name and a 'Product Designer' role. The 'Recruitment Ranking' section shows a '3rd' ranking. The dashboard also features a 'Blogs' section with a post titled 'How to get your dream job' and a 'Tips' section with a post titled 'How to search a Candidate'.
